

Abu Zafar Mohammad Saleh Billah Mishkat

Full-Stack Software Developer | Data Science & AI

sbmishkat10@gmail.com | Dhaka, Bangladesh | [linkedin.com/in/saleh-billah](https://www.linkedin.com/in/saleh-billah) | github.com/mishkat2025

PROFESSIONAL SUMMARY

Full-stack software developer and final-year Computer Science & Engineering student at East West University, majoring in Data Science & Artificial Intelligence. Designed, built and deployed a production student management system for a coaching business, covering the React front end, Node.js and Express API, MongoDB database, role-based authentication and self-managed deployment with PM2 and Nginx. Builds retrieval-augmented generation (RAG) applications using hybrid search and locally hosted large language models. Available for freelance projects and full-time roles in software development, machine learning and AI.

WORK EXPERIENCE

FREELANCE FULL-STACK DEVELOPER | Ador Coaching (Client), Dhaka 2026 – PRESENT

- Delivered Cooked by Ador (CookedByAdor.com), a full-stack student management system built with React, Node.js, Express and MongoDB, taking it from requirements to production launch.
- Implemented role-based access control for teachers, teaching assistants and students across courses, attendance, assignments, grades, announcements and progress tracking.
- Built authentication, file uploads for course materials and assignment submissions, payment handling and downloadable grade reports.
- Maintain the live application on a self-managed server using PM2 and Nginx, handling deployments, feature updates and troubleshooting.

PROJECTS

EWU BULLETIN RAG ASSISTANT | github.com/mishkat2025/rag-project-bluebook 2026

- Built a retrieval-augmented generation (RAG) question-answering system in Python that answers questions about programs and policies in the East West University bulletin.
- Implemented hybrid retrieval combining semantic search over ChromaDB vector embeddings with BM25 keyword search to surface the most relevant passages.
- Integrated a locally hosted Gemma model through LM Studio to generate answers grounded in the retrieved bulletin text.

EDUCATION

BSc in Computer Science & Engineering | East West University, Dhaka Expected: 2027

Major: Data Science & Artificial Intelligence. Additional coursework in software engineering.

SKILLS

Languages: Python, C/C++, JavaScript, SQL, Java

AI & Data: Machine Learning, PyTorch, Pandas, Hugging Face Transformers, Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), ChromaDB

Web & Backend: React, Node.js, Express, REST APIs, MongoDB, PostgreSQL

Tools & Deployment: Git, GitHub, Docker, Linux, Nginx, PM2, Coolify
